

## CHAPTER V

### CONCLUSION AND SUGGESTION

This is the last discussion in this research. Based on purpose of the research, the writer would like to provide a summary explanation regarding result of the present work and a brief suggestion for the next researcher to expand study about the euphemism.

#### 5.1 Conclusion

This research finds out the application of euphemism related with types of euphemism and the function of euphemism in CNN international news, the first purpose in this research to identify the types of euphemism, based on data discovery the writer found the types of euphemism are 62 data. The data consist of circumlocution 11 times, metaphor 10 times, hyperbole 15 times, underestimates 8 times, and Abbreviation 4 times, positive euphemism 8 times and negative euphemism 6 times. The highest percentage from types of euphemism is hyperbole. The hyperbole come out 15 times within of total data, the lower percentage is abbreviation. The abbreviation comes out 4 times within 62 of total data.

Hyperbole becomes the most popular from types of euphemism, because hyperbole considered as a good way to makes sound better and more effective way to exciting and dangerous. Furthermore, hyperbole type is popular used by reporter when they want to display their respect to the people during they are speaking in the public. Beside respect to the people, the hyperbole contains

exaggerate to the sense. By using hyperbole can easy catch people's attention to reach their goal in convey information nice and politely.

The second purpose in this research to identification the function of euphemism in CNN international news, the writer found there are three functions of euphemism that displayed in the data namely, as shield and avoid forbidden occur in 20 times, as softener of confuse or reverse occur in 28 times and as provocative to express inspire occur in 14 times. As softener of confuse or reverse is the highest frequently used by reporter with and appear in 28 times, then the lower function of euphemism frequently used by reporter is as provocative to express with and appears in 14 times.

Euphemism as softener of confuse or reverse is the most frequent function occur in CNN international news because it can be expressed the speaker intention without hurt someone during conveying information, by using euphemism indirectly speaker makes the sound soft and present their respect and good manner toward people, in addition it can be the most effective function to appreciate people.

## **5.2 Suggestion**

According on conclusion that writer had been explained, the writer gives some recommendations for all of us, especially for student. Student can take the advantage from of style and variety of language in English, especially the form of euphemism that it can be applied in daily life, by learning euphemism, it can help us to maintenance our utterance. In addition euphemism avoids us from hurt feeling and builds good relation toward people.
