

CHAPTER V

CONCLUSIONS AND RECOMMENDATION

5.1 Conclusion

In accordance with the findings and discussion in the previous chapter, several conclusions regarding the violation of the maxims and its implicature spoken in the Knives Out movie can be drawn as follows.

1. Based on the results obtained that the implicatures of this research are mostly to cover up secrets that do not want to cause suspicion
2. In Knives Out movie found 1 data of violating maxim of quantity, 2 data of violating maxim of relevance, 3 data of violating maxim of quality and quantity, and 24 data of violating maxim quality

5.2 Recommendation

After finished this research, the researcher proposes two suggestions for:

1. Students of English Language and Literature

English Language and Literature students, especially those majoring in linguistics, are advised to learn more about the violation of maxims because this is a common phenomenon in the use of language in everyday life. It is also suggested for them to do research on the violation of maxims with a different purpose because it has many aspects other than the type and its implicatures that can be explored.

2. Further research on the same topic

For further researchers, it is better to use another corpus to analyze the violation maxims of the cooperative principle. Therefore, the researcher expects other researchers to conduct further research with up-to-date corpus data.
