

CHAPTER V

CONCLUSION AND RECOMMENDATIONS

After analyzing the data, the conclusion is made in this chapter. The conclusion is made from the analysis and findings in previous chapter which are types and strategies of flouting maxim in “Justice Society World War II” movie. in below, recommendation is given for the students and future researcher.

5.1 Conclusion

From the research analysis and findings in chapter four, there are two conclusions have been made. First, the conclusion is for types of flouting maxim in “Justice Society World War II” movie. All types of flouting maxim found in this movie. Those are flouting maxim of quality, quantity, relevance, and manner. From the findings, there was found type that often occurred which was flouting maxim of relevance. That means the speakers from this movie liked to flout maxim of relevance. Next, flouting maxim of manner is the least type found.

Second conclusion is referred to strategies of flouting maxim in “Justice Society World War II” movie. Characters in this movie had done some strategies to flout the maxims. And the strategies that frequently done was being irrelevance. This strategy is done by the speakers to expect the hearer get the implied meaning. Moreover, strategy of being not brief was the least to use. That suggests that the interlocutors want the conversation to be complete and brief.

5.2 Recommendation

After all explanation and analysis, this recommendation is given to students in particular students of English literature and other researchers or future researchers. First recommendation is given to students. By providing this research, the students can have knowledge of flouting maxim for instance the types and strategies of flouting maxim. Furthermore, the students can learn how to find the implied meaning of conversation from this Pragmatics approach.

Second recommendation is given to other researchers or future researchers. Find the novelty in their research when conducting this topic if they can to make their research different from other research. Next recommendation is the data source for this topic as the research if they are able is the newest one. It can be from movies, daily conversation in real life, and social media as the data source for their research. By taking the newest data source, they can find if there are any new utterances regarding to flouting maxim. After all, this recommendation can be their references to conduct their research.
