

CHAPTER V

CONCLUSION AND SUGGESTION

5.1. Conclusion

Address form is a formula generally accepted as proper or suitable for addressing an individual of a particular rank or status either orally or in writing. The theory supposed by Meyerhoff available with the Cinderella movie 2015 to analyze types and purposes of using address form.

From the explanation in the previous chapter, it can be concluded that People have their own way to communicate in society, especially in addressing. The way to name or address another is called address forms. This research aims to analyze the use of address forms in *Cinderella* movie 2015. After analyzing the data, the researcher obtains two conclusions.

First, the types of address forms found in the movie were Surname Plus Professional Title in data 7 and 10; Direct found in data 1, 5, 6, and 11; Given Name found in data 2, 12, and 13; Standard Short of Name found in data 8 and 14; Special Nickname found in data 3, 3, 9, and 15. Direct and Special Nickname were the most uttered address forms in the movie.

Second, the purposes of using address form found in the movie were Convey Information in data 1, 3, 5, 6, 7, 11,12; used a nominal that can be characterize or categorize found in data 2, 10, 13, 15; and used in call and refer. The purposes of convey information is the most uttered while used in call and refer is the least.

5.2. Suggestion

The researcher suggest to the reader for fight hard to fulfill and satisfied our needs in life because the research prove to completed our needs it isn't easy. This is important to people for studied about address form because First is for the linguistics students. The variety of language has grown widely in this era. Many vocabularies have been added and become official to the standard of language. It is important for the students to improve knowledge about language especially the address terms. The students have to learn to apply the new vocabularies into the address terms and use it in the community. Second is for other researchers. The phenomenon of address forms is not only found in movie. It is also found in another source of data like novel and drama. It is important to find the difference about the use of address terms in different source of data. In other case, theory about address terms comes from many experts. It grows from time to time. Every theory is different than others. The experts bring new and different theory about address terms. It might be with the types or functions. It is highly recommended for the upcoming research to analyze address terms with another theory. Every single things people do have an impact to theirselves. It can be a better one or the worse one. For the next researcher, who take this field to use other approach because this research related to the researcher aspect. For the lecturer in the university can make this thesis as a reference in teaching.
