

CHAPTER V

CONCLUSION

This chapter comes to conclusions of the research and the researcher would like to give suggestion. Furthermore, this section can be categorized as the last chapter. They are describing the types and the reasons of slang language used in the movie.

5.1 Conclusion

After the analyzing, the researcher makes the conclusion from this research. The first aim of this research is to describe the types of slang language used in *The Edge of Seventeen* movie. This research reveals there are 37 data which are analyzed of slang language found in the movie. The researcher classified this research into 9 types by using theory of (Yule, 2006). Nevertheless, the researcher only found 8 types slang language in this research. There are 2 data from *acronym*, 1 data from *back formation*, 2 data from *borrowing*, 5 data from *clipping*, 7 data from *coinage*, 14 data from *compounding*, 2 data from *derivation*, 4 data from *multiple process*. From the amount of frequency above, it can be concluded that the type of slang language of *compounding* forms have the highest frequency and the lowest frequently is *back formation*. Moreover, the type of slang *blending* that is not found in this research.

The second aim of this research is to analyze the reason of slang language used in *The Edge of Seventeen* movie. The reason of using slang in *The Edge of Seventeen* movie based on the words are used and the context of the scene. From the analysis the researcher can concluded that the reason of slang are to show that something belongs to a certain situation. They are; As an exercise either in wit and ingenuity or in humor, to be brief and concise, in playfulness and waggishness, To be secret, to be picturesque as in the wish to avoid insipidity, to express a pleasure, to express a startle or shock, to express anger and disappointment, to express that someone is being out of control, to induce friendliness, to mask her ugliness or the pity of profound turpitude, especially her treachery, to persuade someone in conversation, to show that one belongs to certain group.

5.2 Suggestion

Through this paper, the researcher suggests for English learners who are interested in sociolinguistic especially to analyzing or in comprehending the slang language to conduct about this topic in different aspect. Utilize the slang language for improving their knowledge of language study and to discuss about slang word more deeply. Hopefully, the future researcher presents better research. The researcher suggests that studying about slang language is very interesting, so they must master the topics they want to discuss, and they should enjoy in the search for materials they need to analyze slang. They also find slang language through novel, internet or slang dictionaries that supported the slang data.

Finally, the researcher hopes that this study will be useful for the future improvement of English learners as a reference, especially about slang language, and be one of the sources for further research in slang language of literary work for the student so English Department who want to do the similar research.
