

CHAPTER V

CONCLUSION AND SUGGESTION

After presenting the research finding and discussion in the previous chapter, this research makes conclusion and provides some suggestions to the reader, especially for those who concern to this topic and the next researchers when they are going to conduct research in this field.

5.1 Conclusion

Based on research finding in chapter 4, the reseacher concludes that character of Cleopatra shown by her characterization which are direct statement, action, speech, reactions from the others. She was a queen of Egypt, a beautiful girl, ambitious woman, and having a power to show herself as a different woman. She prove that woman can be a subject not an object.

This is futher strengthened by the reflection of existentialist feminism values in her character. She kept her existences by working as a queen of Egypt, by being intellectual. She was a symbol of feminism and power because of her strong and independent.

5.2 Sugestion

This research has some suggestions for the next researchers who are interested in analyzing the same field of the research to analyze existentialist

feminism. The researcher suggest anyone who interested to a deeper study about feminism in literary work to read more sources about feminism. The reseacher also suggest some books to be studied, such as Rose Marie Putnam Tong's book about Feminist though, and Jean Paul Sarte's book about sex and revolution.
