CHAPTER V

CONCLUSION AND SUGGESTION

5.1 Conclusion

According to Wardaugh, Ronald & Fuller (2015) language style is any situation that when we are in the situation, we can adjust what language style we have to use according to circumstances. Wardaugh, Ronald & Fuller (2015). In this thesis, there are four (4) styles found. They are formal style 9 data, consultative style 2 data, casual style 6 data, and intimate style 13 data. The researcher found intimate style was the dominant type of language style in this thesis.

In this thesis, the researcher also found the factors of language style used in the "Mean Girls" movie. The factors used the SPEAKING theory by Hymes. The researcher found setting and scene for where is the dialogue took place, participants for the who is the characters of the dialogue, end for the purpose or goal of the dialogue, act sequence for the actual topic and the relationship of what is said in the dialogue, key for gesture, tone, and manner, and norm for behavior or attitude of the people who speak in a certain condition. All of that factors found by the researcher that related with the types of language style.

So, the researcher was found the relationship between the types of language style and the factors of using language style in the movie are the movie talk about teenagers where canteen is mostly the place they can do their activity an we know that mostly the teenagers using intimate or sometimes casual to their friends. In

this movie, the teenagers mostly using intimate style because the movie was matches to the characters of teenagers which is free to speak.

5.2 Suggestion

In writing this thesis, the researcher would like to give some suggestions for the readers especially for the students of English Department or anyone to speak or interact with people or even adult politely, know manner of speaking that depend on place and time. Moreover, for those who interested in language, especially the language style, there are many interesting thing about language style and also the factors of language style used. The researcher hopes that this thesis will be useful for the future researcher and can be a reference for those who want to write about the types of language style and also the factors of using language style especially in movie.
