

CHAPTER V

CONCLUSION AND SUGGESTION

5.1. Conclusion

After discussing the findings and discussion, this chapter presents the conclusions of the research which aimed at known the ways the main character's fulfill his self esteem in novel "Wonder" by R.J. Palacio. After analyzing August's self esteem needs of hierarchy of needs in the novel "Wonder" by R.J Palacio, the researcher reach a conclusion all of elements of self esteem needs are existed in the analysis of main character. It means that the theory of hierarchy of needs by Abraham Maslow is applicable into the novel "Wonder" by R.J Palacio.

From the description in the previous chapter. The first elements of self esteem needs, confident of the main character is satisfied. He feel confident with his face when he meet people around him. The first day of school he felt very not confident because he always experienced bad things that is the people always talked about his different faces.

The second elements of self esteem needs is achievement, the main character able to fulfill his achievement. It shown when he got achievment in his school like High Honor Roll, and his highest achievement is he has a schoolmate who can accept his condition. Now, he has many friends who care for him, and he doesn't feel different from the others, because he is an extraordinary child. The difficult thing besides the surgery was that he had to be able to blend in with his environment, but he can do it.

The next is respect by others. In this elements the main character satisfied his self esteem needs. It shown when his family, his friends, Mr. Thusman, Mrs. Garcia, and Miranda care with August. The last is respect of others also satisfied when August care of people around him, especially with his family, headmaster and his friends.

5.2. Suggestion

This research may contribute to the student in enjoys literary works, especialy the novel. Therefore, the researcher prooses the following suggestion for other researchers who will conduct further research on the same novel or the same topic as indicated in the following paragraphs. This research is limited on the study of main character. The study is related to the self esteem needs as the aspect of building the personality. The analysis can be also done in other types of personality. It would be better to add the analysis with other aspect of personality. Afterward the researcher suggest others to have further study in comparing this novel.

Researcher realized that there were more things needed to be researched in different perspectives while reading the novel. The researcher really hopes that this reaseach can be useful for the readers other researchers in widening the knowledge of literature studies in which this research can become a reference in literature reasearch. Moreover, the next researchers are also expected to explore and investigate some other phenomena. Researcher suggested to the future researchers who read this research to find the different things in the novel that

need more concrete explanation. Finally, the researcher hopes comments and critics from the readers related to this analysis of psychological.
