

## CHAPTER V

### CONCLUSIONS AND SUGGESTIONS

#### 5.1. Conclusions

It is clear on how in both Marriage life and the society, the gender roles exist. In this research, it is very clear that gender roles exist in the data that researcher choose. Gender roles in Kim Ji young; Born 1982 mostly disadvantaging female in this whole scenario. How a family would esteem a girl more than a boy from birth. Most girls opt not to celebrate the holidays with their own family, but instead with their in-laws or their husband's. The girls will soon come to the realization that their time with their own families has decreased since getting married. Every woman in the world today must swallow her dreams because it occurs to them both before and after they are forced to get married and have children. Even though Jiyong's uncle was born a man and not a lady, they attended a respectable school and got the training they needed. Naturally, Jiyong mother's existing circumstances improve, but that doesn't change the fact that she is now a mother, thus she had to give up on another desire.

Applying gender roles theory brought by Linda Lindsey, for both in marriage and social life, the researched dividing both theory into several parts. Reflecting to the gender roles in marriage and family, the researcher divided in both for men and women in the family. While in gender roles in social institution discussion the researcher separated the theory into three parts; The society that promotes the inequality of gender roles impacting Kim Jiyong's Family, the society that promotes the inequality of gender roles impacting Kim Jiyong's Social Life, and the society that promotes the inequality of gender roles impacting

Kim Jiyoung's work *Life*. And the researcher pointed out the phenomenon that written in the novel as the data.

## **5.2. Suggestion**

The researcher would like to provide the following parties several theoretical and practical recommendations, which will be further discussed below, based on the study's findings:

The researcher's goal is for this study to aid other students in comprehending the gender roles Approach, particularly the gender roles approach developed by Linda Lindsey, which she employed for her investigation. The initial theoretical suggestions for upcoming scholars who wish to use the gender roles method in conjunction with the feminist approach to study. There are more study books that also recommend the gender roles method, besides "Kim JiYoung; Born 19892".

The second is a helpful suggestion made to students and other researchers. In order to further explore the gender roles method that can be applied in Cho Nam Joo's novel "Kim Jiyoung; Born 1982," the researcher hopes that this research can serve as a reference for future scholars. In addition, researchers anticipate that the gender roles approach will serve as a catalyst for introspection for both the younger generation and themselves. By accepting the theory, the younger generation is able to consider and understand how gender roles are an important topic to talk about in order to build a better society where men and women can both have equal rights in their responsibilities as human beings.
