

CHAPTER V

CONCLUSION AND SUGGESTION

5.1 Conclusion

By analyzing the data, it can be concluded that flouting maxim happened when the speaker does not obey the rule of cooperative principle. In order to understand the meaning in the utterances, context is needed for the utterances. There is no misunderstanding by comprehending the context of the situation the speaking. The purpose of this research is to know the types of flouting maxim and the reason of the using of flouting maxim. By analyzing The Graham Norton Show, it can be found that there are three maxims that have been flouted in the show. all of them are maxim of quantity, maxim of relation and maxim of manner. The most dominant maxim in this show is maxim of quantity. For the second research question is the strategy of flouting maxim that contained in the show. The most strategy the speaker flouted the maxim was overstatement.

5.2 Suggestion

This research about flouting maxim still has weakness in the arrangement. In order to gain more knowledge in understanding the rule of cooperative principle, it is important to comprehend the cooperative of principle. The understanding of cooperative principle prevents reader from the failing in observing the maxim. Since English language is important as the international language, learning English can be done by knowing the flouting of maxim. It can

prevent in breaking the rules of cooperative in Gricean Maxim.
