

BAB V

CONCLUSION AND SUGGESTION

After conducting, present the data, analyze the data and discussing the result, in this chapter the researchers would like to present the conclusion and suggestion of this research.

5. 1 Conclusion

From all the research, there are 31 data which had relation to the type of directive speech act by Searle and Leech theory. The researcher able to answer of the both problem. There are 10 types and 4 functions found in Jimmy Kimmel Live talkshow. they are request contains 11 data, 3 data contains command, 3 data is advice, 2 data for offering, 3 data for question, 1 data for inviting, 2 data for ordering, 1 data for prohibiting, 3 data for challenging, 2 data for permitting. The most dominant that appear is request because all the utterance and the host was asking question with saying request at the first. Besides the types, the function of directive act included four, 8 data for competitive, 5 data for convivala, 1 data for collaborative and 1 data for conflictive. The most dominant that appear is competitive because competitive is function of directive act intends as competition to the social purpose. It is intended to produce some effects through action by the hearer. It means the utterance of Jimmy and his guest produce the utterance as competition social purpose.

5.2 Suggestion

After analyzing the data and discussing the result, the writer gives some suggestions to those who might be benefited to the result of this research. For the readers, the researcher hoped that this research could improve the reader's knowledge about directive speech act. It is also hopes after read this research the readers would be understand if every utterance that produce by people sometimes has implicit meaning that want to send to hearer, so the reader can be communicate well with the others. This research could be one of the references in studying directive and for the other researcher, and the researcher hoped that in the future there will be other researchers who will conduct the same topic to complete this research although in different field.
